STATINTL Re Sourwine's call concerning [REDACTED], I have  
talked with [REDACTED]

STATINTL who has been very much involved in laying on the arrangements for  
[REDACTED] visit to the United States. He is sponsored under a leader  
grant which was arranged by the Agency. An outside organization  
apparently has set up a tentative schedule of activities for [REDACTED]  
while in the United States. This includes a trip to Capitol Hill (presumably  
this is where Sourwine plans to see him). [REDACTED] has asked that the trip  
to the hill be stricken from the schedule on the ground that in his opinion  
it would serve no useful purpose and could result in serious security  
problems. (He is aware of the inclusion of internal security in [REDACTED]  
congressional hill schedule.) Attached are two memos on [REDACTED] and his  
visit including biographic material on him. He is scheduled to visit with  
General Carter on 13 May. (This will be in the three-day period following  
the leader grant sponsored portion of his visit.
